

EGD

Eluko General Dealers, Germany

CEO & FOUNDER'S FOREWORD

Mr. Evans N. Lukomona, CEO & Founder

Welcome to EGD, Germany!

I am a proud founder of Eluko General Dealers (EGD). My journey in international business has fueled the establishment of EGD, a company built on the principles of integrity, innovation, and a genuine desire to make a difference. As we embark on this exciting venture, I invite you to join us in creating opportunities and fostering meaningful collaborations and international business.

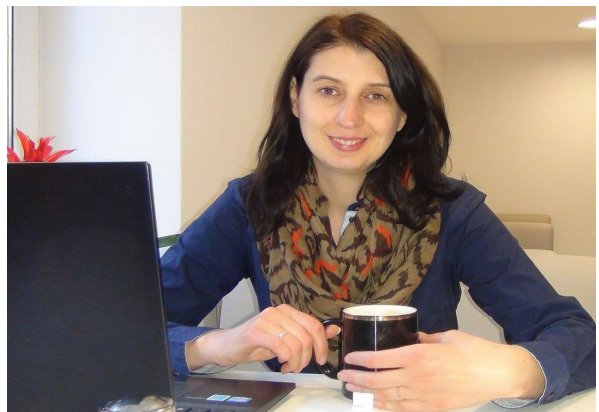

Apart from EGD Germany, I am also the CEO and Founder of CDT Group Germany. The acronyms CDT represent three other organizations working together to uplift humans, especially in Africa and other semi-developed nations. According to founding years, these are, Central International University-CIU in 2022, Diversity Learning Institute-DLI in 2012, and Twikatane e.V Charity in 2017. Before getting involved in my entrepreneurial businesses, from 2011 to 2015 I worked as a teacher, coach, and trainer in five Hamburg state schools before proceeding on to teaching in higher institutions in Hamburg and Kiel cities.

Mostly, through DLI Germany and Twikatane e.V, our good works have received written appreciation from the Bundestag(German Parliament), The Hamburg Bürgermeister(Mayor), the Zambian government, the Zambian Embassy in Berlin, and more. Hence, it is my prayer that EGD Germany will join the roadmap of success paved way by CDT Group Germany.

Thank you for your cooperation!

Best regards,

Evans Lukomona, CEO & Founder
Eluko General Dealers(EGD) Germany
CDT Group Germany

Natalia Ustymenko Lukomona
Office Assistant & Advisor

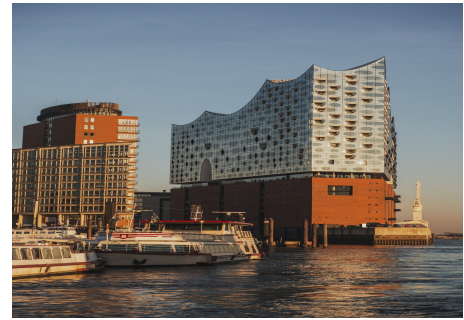

"You are in a right place and at a right time!"

With us, you are rest assured of good and successful business cooperation and transactions. We do our business procedures according to the acceptable legal framework"

ABOUT EGD GERMANY

Founded in 2023, we are a dynamic company dedicated to fostering international business connections and providing a range of services that contribute to the growth and development of businesses in diverse sectors. With a commitment to excellence, EGD aims to make a positive impact on both the business landscape and the communities we serve.

Not only in Germany and Europe, EGD Germany, despite being a newly born firm, is already linked to other various countries globally.

OUR SERVICES

General Business Consultancy: EGD offers comprehensive business consultancy services, providing strategic insights and practical solutions to enhance organizational efficiency and competitiveness. Such consultancy programs go further to bringing together the German, European union and other advanced states with Africa on a mutual business understanding and cooperation. The results are amazing!

Mining and Metals Trade Consultancy: Navigate the complexities of the mining and metals industry with EGD's specialized consultancy services. With our partner experts in this area, we provide expert guidance to optimize operations and capitalize on market opportunities across borders.

International Investment Partnership (IIP): Involves collaboration between countries to foster economic development and attract foreign investment. Countries entering the EGD's IIP often negotiate and establish Bilateral Investment Treaties. These treaties provide a legal framework to protect and promote investments between the participating countries. This typically includes provisions related to investor protection, dispute resolution mechanisms, and guarantees against unfair expropriation.

Market Access and Liberalization: IIPs often involve agreements to open up markets and reduce trade barriers between the participating countries. This may include tariff reductions, elimination of non-tariff barriers, and measures to promote fair competition. The aim is to create a more favorable environment for international business and investment. We bridge gaps, facilitate partnerships, and open doors to international markets, fostering growth and expansion for businesses worldwide. One of our most recent, since 2023, occupations is to link together the precious metals sellers and buyers. Mostly between Africa, Germany, Switzerland, Austria, and United Arab Emirates (UAE).

General Import and Export: At EGD, we specialize in facilitating seamless import and export operations. Our expertise ensures efficient global trade connections, helping businesses navigate the complexities of international commerce.

Supporting & Investing in Start-Ups in Africa: Committed to fostering entrepreneurship, EGD actively supports start-ups in Africa. Through mentorship, guidance, and strategic partnerships, we aim to catalyze the success of emerging businesses. EGD, also, raises business capital for the SMEs in Zambia, Africa. We partner with such and jointly run their businesses together, with the business owners taking a larger revenue share.

Social Support: Supporting the poor, needy and vulnerable in Africa. EGD is dedicated to making a positive impact on communities in need. We initiate and support projects aimed at improving the lives of the needy and vulnerable across Africa. In the past recent years the world has seen the massive immigrations by the African youth that take risks by crossing the seas for a better life in Europe. Usually, such journeys find these youths trapped in these seas! Our company is here to raise finances and materials to support the African youth locally through affordable education and learn skills that will make them become entrepreneurs right in their home countries.
